

**Captions/Proof Sheets for 12 35mm rolls of images (photos and newspaper clippings)
from Luscar Ltd photo albums and scrapbooks; copied by A C Lynn Zelmer 1972.**

These black and white images represent the contents of several photo albums and scrapbooks containing newspaper clippings from and about the Alberta Coal Branch. They were copied in the Luscar Ltd offices in Edmonton early in 1972 with the permission of Vice-President, Administration, GD Coates and under the supervision of Corporate Secretary, RJ Weaving.

The images were originally acquired as part of a proposed multimedia resource package for Alberta Schools. After processing the negatives were printed in 8"x10" size and some were mounted for use as motion picture stills. However the multimedia package was never completed and the images remained roughly catalogued, but essentially neglected, until some were used for an Australian conference presentation and web posting in 1997, and later scanned for deposit with the Provincial Archives of Alberta in 2006.

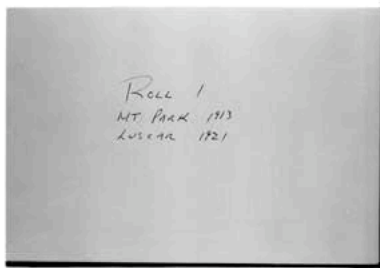

As far as possible photo captions were included on each copy negative. Not all images had individual captions but refer to images just before an image when captions are unclear. Roll designations were assigned when film rolls were processed.
