

# THE SWEET TASTE OF POWER AND PERFORMANCE IN THE MOST ADVERSE CONDITIONS

50 years of research and development have lead us to develop the high performing Austoft® sugarcane harvester. Packing a punch with power and performance, the Austoft is not only comfortable but will keep you productive this season during your lengthy harvest days. Ensuring efficient fuel consumption, the A8000 Series harvesters are equipped with the Smart Cruise intelligent engine, which optimises fuel usage and makes harvester operation even simpler. And when harvesting in the most adverse conditions, the simplicity of operation and maintenance, low operating cost and excellence in after-sales service make Case IH a most cost effective option. **Contact your local Case IH dealer today.**
