CO*ORDINATING COMMITTEE.. Due to the fact that there are now at least three model railroad clubs in Calgary, and that there are times when the clubs can co-operate to achieve such things as better shows, fan trips, and hosting of visiting model railroaders a co-ordinating committee between the three clubs has been suggested, both to plan and co-ordinate joint activities but also to act as the "fact finding committee" suggested by the OWL to investigate their particular shortcomings. If any member would like to volunteer for such a committee or if you have any suggestions concerning its operation please communicate same to your respective executives.

OTHER MODELLERS.. Do you know of any other modellers who schould be receiving this notice: ie. lone modellers, non-members of any club, prospective members. If so please notify Lynn Zelmer through your executive at your next meeting.
