

SOUTH BANK SHORT LINES URGENT.

I need within the next two weeks (by Feb. 15) the following information:

1. Detailed roster of locomotives and outstanding cars of your railroad. Include where known: Wheel arrangement, year built, manufacturer, type of fuel, any special details or added features.
2. Names of the important towns on your railroad and knowledge about them. For example: Gullsnest may be a town with a major industrial complex for refining Galena ore, another town may only be noted for its prostitutes, etc. Please let me have any information about which a story can be woven.
3. The major reason for your railroad and major commodities carried and the era of operation. WHY AND WHEN IS YOUR RAILROAD ?
4. Any ideosyncracies about YOU or your railroad that can be used for a story. Also the names, occupations and claims to fame for any "characters" who may be well known on your lines.
5. Any thing else that might help us such as passes, heralds, paint schemes, lettering schemes, slogans, up to date map and track plan. Future plans for the railroad etc.

The SOUTH BANK has again been registered as a 100 % Club, and certification will arrive shortly.

Letterheads are ready for the BOBBER, be sure and see them. To date the BOBBER has cost me approximately \$ 6.00. Is it ~~wax~~ worth continuing ? and are you willing to pay something for it ?

Stencils and materials for the CONVENTION BOOKLET have been or are being purchased, cost to date about \$ 9.00.

Dispatcher advertisement is now due. Cost \$ 4.00, in the past this has been paid for by myself, I am willing to donate \$ 1.00 towards it.

New additions to the LIBRARY :

Beebe: MIXED TRAIN DAILY

Beebe: MANSIONS ON RAILS

These are owned by myself, but are available for loan.
