## ORIGINS: Dragon and Phoenix

*Printmaker: Lynn Zelmer, Capricornia Printmakers Inc*

Tai Chi and Yoga have roots in Chinese history and mythology and the staff form I've been studying recently uses dragon, phoenix and butterfly imagery to motivate the movements. My dragon and phoenix images originated as tattoo designs; the yin-yang symbol provides their focus here. The multiple variations are a reflection of my need to relearn linoprint techniques after a break of almost 50 years.

*15cm x 15cm prints with water-based ink on A4 acid free paper.*
