Containers on Westgate

Arthur Hayes

Westgate has entered the modern era with the introduction of containers, of course they are not double stacked 53 footers, but 20' ones, single mounted on short flat cars.

The paint was from a rattle can purchased at Supercheap Auto on special for \$2.50 a can.

⇨ 84049

Decals applied straight onto the painted surfaces, nothing has been added to cover the decal. One container has a light weathering.

84165 ⇨

I have used a mix of different container types to see how they go.
